- Hindi (Fluent)

## PROFILE

Highly motivated and enthusiastic fresher web developer with a solid foundation in HTML, CSS, and JavaScript. Experienced in building dynamic and responsive web applications using React.js. Proficient in back-end development with Java, including building RESTful APIs. Basic knowledge of MySQL for database management. Eager to leverage skills and learn new technologies in a collaborative team environment.

## PROJECTS

### Portfolio Website:

- Developed a personal portfolio and a Spotify Clone website using HTML, CSS, and JavaScript to showcase skills and projects.
- Implemented responsive design principles for optimal viewing across devices.
- Integrated React.js for dynamic rendering of content and smooth user interactions.

### Task Management App:

- Created a task management web application using React.js for the front end and Java for the back end.
- Implemented CRUD operations to manage tasks and user authentication for secure access.
- Utilized MySQL for database storage and management of task data.
